

CHALLENGE DETROIT

Challenge Detroit completed its last challenge a few weeks ago and the inaugural class officially ends on August 30th. The year moved by extremely fast, but a second class will be entering soon, starting orientation the last week of August and beginning with their host companies after Labor Day.

The Fellows have worked with a number of different organizations, ranging from the United Way for Southeast Michigan and Matrix Human Services to Beaumont Health Systems and TechTown Detroit. We completed nine challenges in twelve months, each focusing on a different topic related to the region's needs.
